

Corporate Social Responsibility

Nazihar, IT defines Corporate Social Responsibility (CSR) as an ongoing promise to operate with high regard to the quality of life of our staff, the local communities we work in, and society at large. Our commitment is to conduct business in an ethical manner which yields long-term, sustainable results for all our stakeholders.

We also understand that shifts in global, social and environmental factors are constantly driving changes in the way we work. To this end, Nazihar IT continues to evolve in how we incorporate sustainability principles in our operations.

Nazihar IT is invested in championing causes that protect - and bring improvements to - human rights, women empowerment, our communities, our employees, the environmental and governance practices.

We promise to continue listening to our customers and distributors, non-governmental organisations, governments, investors and other partners, to ensure we work together towards worker rights, safe and sustainable environmental practices, and risk management across our operations.
